

Name: _____

Date: _____

A stroll

Chester looked out the window. It was a sunny day. The kids were running around the playground. Chester went out for a walk and saw birds eating by a tree.

A yellow ball touched Chester's legs. Chester grabbed the ball with his mouth and threw it back to the direction it came from.

Chester ran around in circles chasing his own tail until he saw a butterfly. He chased the butterfly and saw it land on a pink flower. Chester was amazed at all the different colors the butterfly had on its wings.

Chester walked back towards his home. He was happy at all that he saw at the park. He drank some water from his bowl and went to his bed to take a nap.

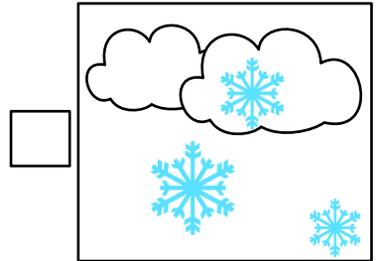

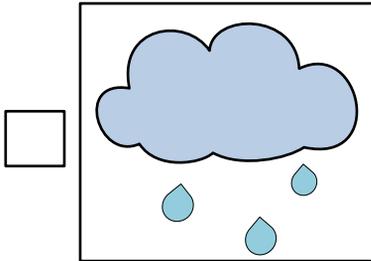

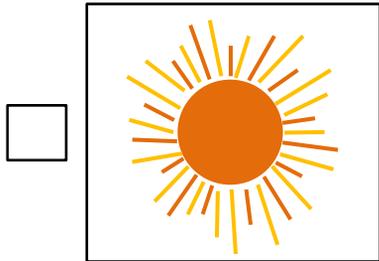

Name: _____

Date: _____

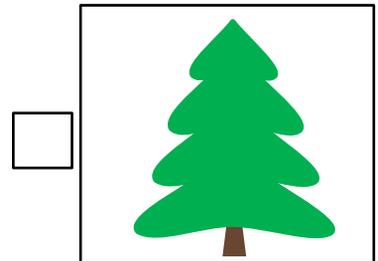

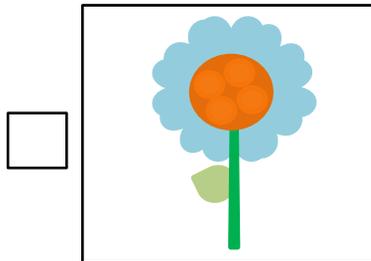

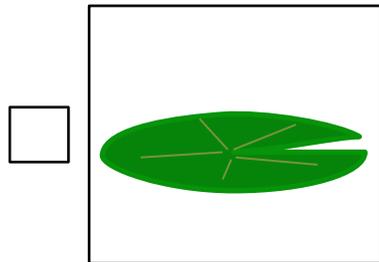

A stroll

Directions: Mark (✓) by the correct answer.

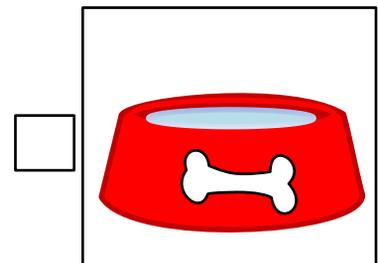

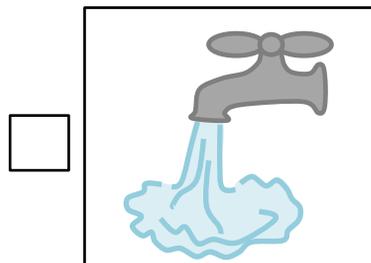

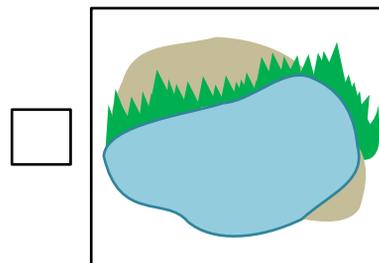

1. What is the weather like in the story?

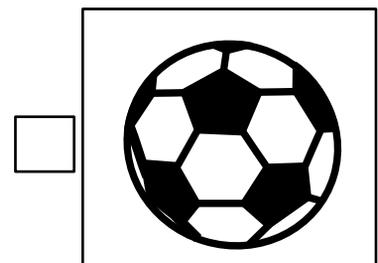

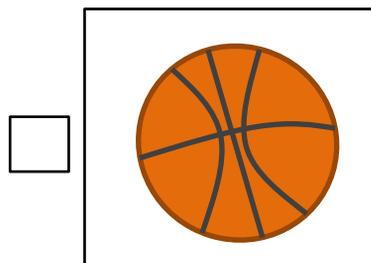

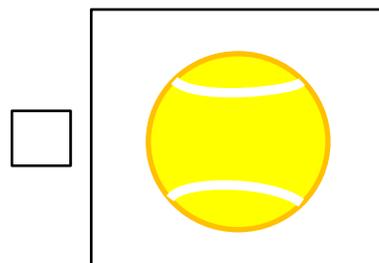

2. Where did the butterfly land?
