WAKE UP CALL

LEARN TO SPOT THE SIGNS OF ALCOHOL AND DRUG USE

Wake Up Call is a 1.5 hour presentation that provides practical information on current drug trends, a walk-through of a teen bedroom with more than 20 red flags that could indicate substance abuse, and proactive parenting strategies to keep your child substance free. The presenters, with lived experience, combine their personal stories, experience working with students and families, and things they wish they would've known into an engaging, real and unique presentation. This presentation is a MUST SEE for parents, grandparents, teachers, community members and other adults who are influential in the lives of youth.

Participants will:

- Learn the current alcohol, vaping, and drug trends
- Receive a guided tour of the bedroom along with a description of items used to conceal substance use
- Learn parenting strategies to help prevent substance use
- Have an opportunity to ask questions

The goal of this presentation is to educate parents and other adults who are influential in the lives of youth so they know what seemingly innocent items can actually be an indication of substance use. Register for free with this link: <https://bit.ly/eawakeup23>
